

Regulated Euro Stablecoin Infrastructure for Cross-Border Settlement

Connecting European banking to cash networks across Asia & Africa through MiCA-compliant rails.

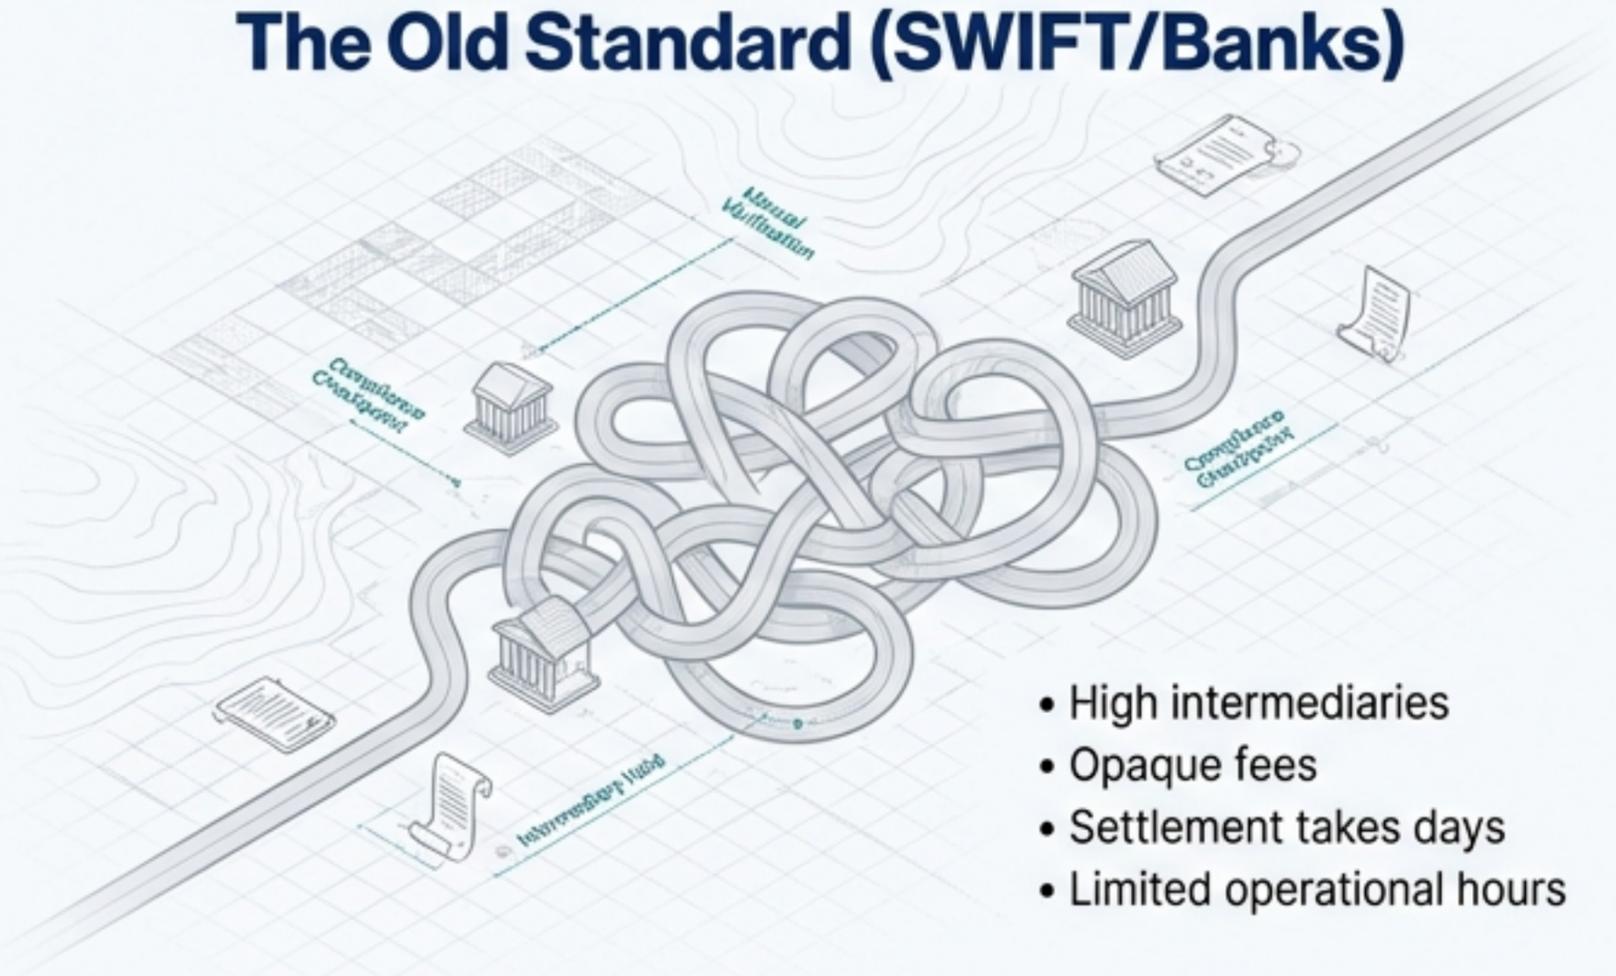

Moneetra: The Compliant Bridge

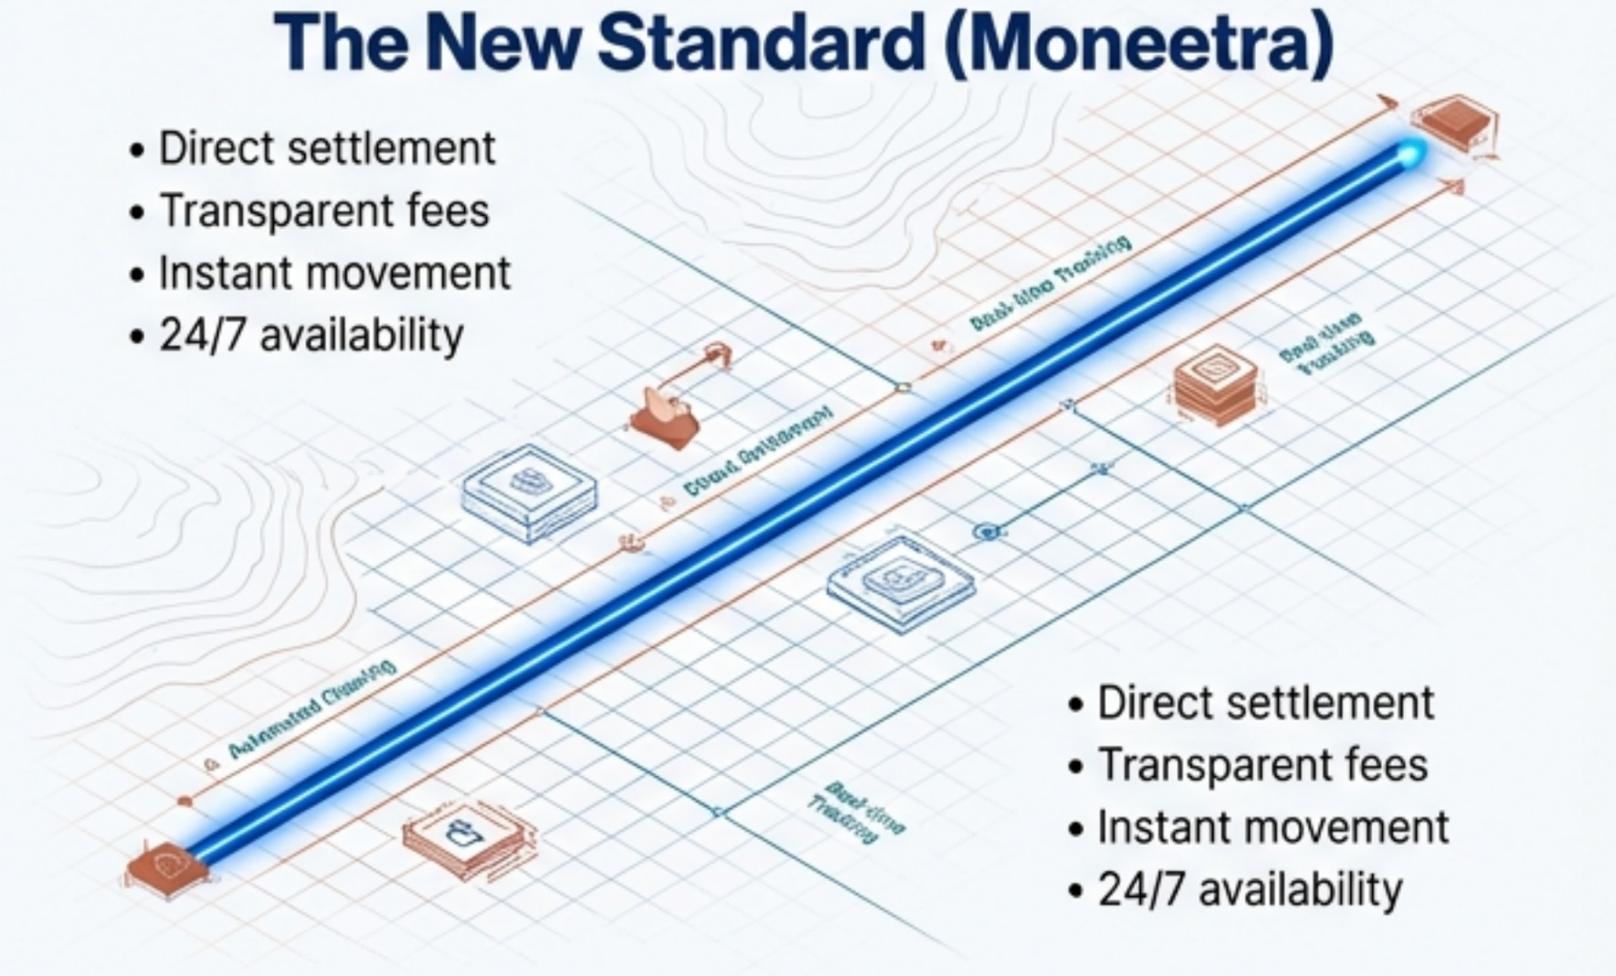

The Shift in Global Settlement

Traditional remittance models are failing families and businesses due to high friction.

The Old Standard (SWIFT/Banks)

The New Standard (Moneetra)

Speed

Days  vs. **Seconds** 

Cost

High & Unclear  vs. **Lower & Transparent** 

Defining the Asset: A Euro Stablecoin, Not Speculative Crypto

Digital Euro

=

Physical Euro

What is a euro stablecoin? A digital euro backed 1:1 by real euros and created under EU regulation.

Trust Anchors

MiCA Regulated:

Created strictly under the European Union's Markets in Crypto-Assets regulation.

1:1 Backing:

Fully reserved assets, distinct from volatile cryptocurrencies.

Audit Readiness:

Transparent reserves ensuring solvency.

The Moneetra Infrastructure Bridge

A seamless flow from European bank accounts to cash-in-hand across the globe.

Streamlined Settlement Mechanics

01

The Input

You send euro stablecoins from your bank account.

02

The Transfer

We transfer them instantly.

03

The Output

They withdraw cash.

Key Takeaway: No long bank delays. Cash available the same day.

Solving the Last Mile with a Vetted Cash-Out Network

Core Concept: Cash where banks don't reach.

Digital money is only useful if it can be converted to liquidity on the ground.

MSBs (Money Service Businesses)

Mobile Money Operators (e.g., M-Pesa integration)

FX Agents

Recipients withdraw cash through verified local partner networks in their destination country, ensuring access even in areas with limited banking infrastructure.

The Trust Framework

Regulated Asset

Issued under EU MiCA rules.

Transparent Reserves

Trusted Partners

Cash paid out only by verified local agents; we vet the "last mile".

We prioritize **safe transfers**, MiCA compliance, and verified cash-out partners.

Governance & Oversight

Role Focus: Project Guarantor

Key Figure: Rostislav Sikora

Oversees transfer safety

Ensures MiCA compliance protocols

Manages local cash-out partner vetting

“Transfers are monitored for safety. Compliance is not optional.”

Phase 1 Execution: Building the African Corridor

Status: Active Development

Market Focus:

- Kenya: Integration with M-Pesa & mobile money networks.
- Nigeria: Cash-out network establishment.

Cash-out coverage is expanding in phases.

Global Expansion Roadmap (2024–2026)

Phase 2 (Planned)

- **Markets:** Ghana, Uganda, Tanzania
- **Action:** Partner vetting currently in progress

Phase 3 (Roadmap 2026)

- **Markets:** Philippines, Bangladesh, Pakistan, Egypt
- **Action:** Compliance review underway

Competitive Advantage Matrix

Attribute	Moneetra	Traditional Money Transfer	Unregulated Crypto
Speed	Same Day	Days	Minutes
Fees	Lower & Transparent	High/Unclear	Variable Network Fees
Regulation	 EU MiCA Regulated	Varies by jurisdiction	None / Gray Zone
Cash Access	 Local Trusted Agents	Bank Branches	Limited / P2P only

Value Proposition for Network Partners

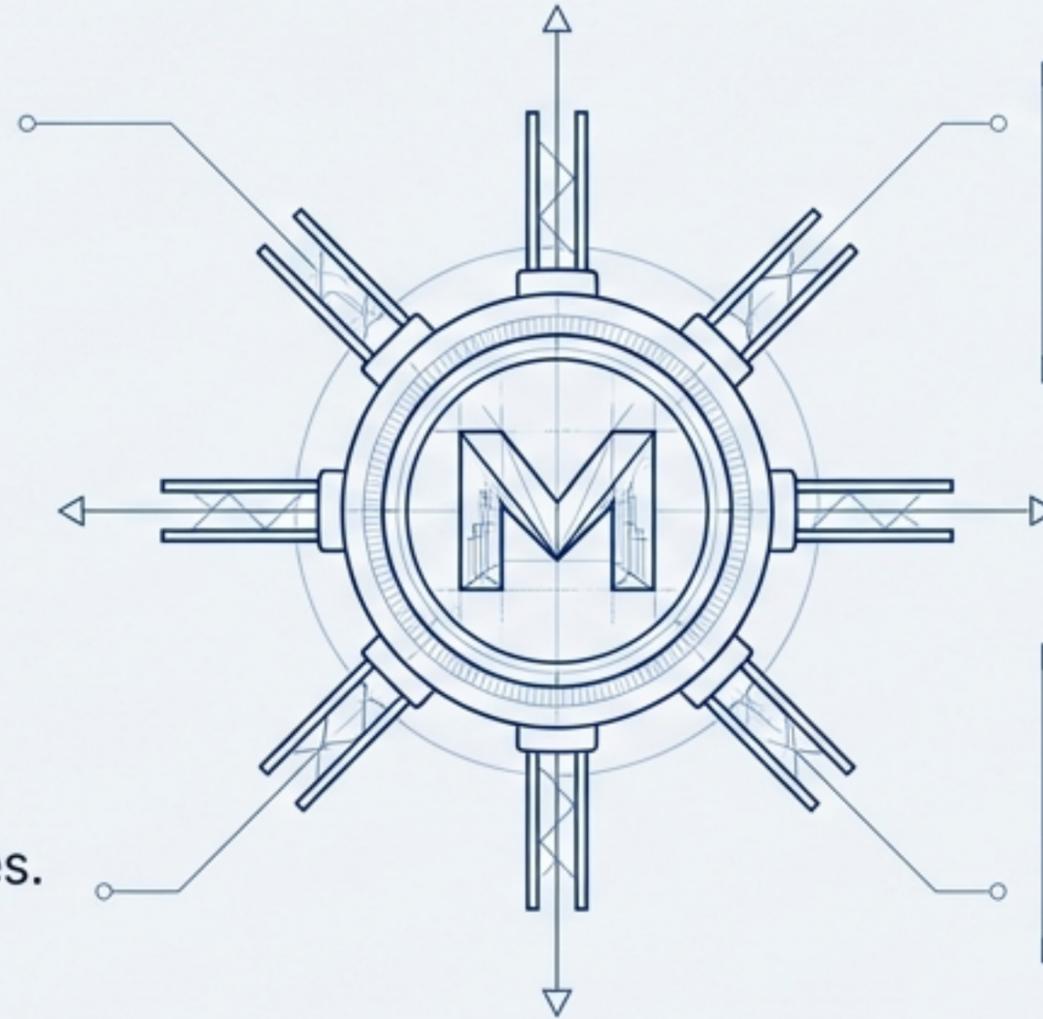

Flow Access

Access to compliant Euro stablecoin remittance volume.

Economics

Transparent fee structure and FX rates.

Reputation
